Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Claims 1-15 are pending in this application.

Claims 7-11 are drawn to non-elected inventions.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6, 12-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Nakayama et al., Heterocyclics, (1987) Vol. 26(4), pp. 939-942.

Nakayama et al., disclose the instant compounds. See compounds 4, 8, 12, 15 and 15'. In the 3rd to last line of claim 1, the S may be SO. Using them in charge transport film, or varnish is inherent property of the compounds. Also, intended use is not a limitation of a compound or product. *In re Hack*, 114USPQ 161 (CCPA, 1957); *In re Craig*, 90 USPQ 33 (CCPA, 1951); *In re Brenner*, 82 USPQ 49 (CCPA, 1949).

Response to Argument

Applicant's arguments filed 2/19/09 have been fully considered but they are not persuasive. Applicant amended claim 1, wherein q is 1 or more. This is not persuasive because when q is 1; R1-R4 are each H; X and Y are each thiophene; and p and r are each 1 or 2, the invention is the same as compounds 4, 8, 12, 15 and 15' by the prior art. Adding q, p, r, together is less than 10 or 20 in each compound. Applicant further contends the prior art fails to disclose the claimed properties of the compounds. This is not persuasive because under the US patent practice such are inherent properties of the prior art's compounds. Though they are not disclosed by the prior art, the compounds are still unpatentable. Applicant also argues the prior art's compounds are disclosed as intermediates. This argument relates to obviousness

Art Unit: 1625

rejection wherein using a compound as intermediates is not sufficient reason for modification of the compound under 35 USC 103. Therefore, the rejection of the claims under 35 USC is now withdrawn.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
